

PRODUCT CARD

FUEL BOOSTER 3 IN 1

APPLICATION FOR PETROL AND DIESEL ENGINES.

Made in New Zealand.

Arguments for :

1. Reduces fuel consumption by between 5% and **15%**.
2. Protects valves and reduces the formation of carbon deposits.
3. Extends oil, fuel filter change interval.
4. Reduces exhaust emissions by up to 50%

NTL certified product. Independent Tribotechnical Laboratory for fuels and lubricants (location Petřvald Czech Republic).

Certificates:

1. Safe data sheet (SDS) according to regulation :
 - 1.1 EC nr 1907/2006
 - 1.2. EC nr 830 /2015
2. Inspection certificate „C” no. 1324 2894
3. VURUP a.s. Accredited organisation- ISO /TEC 17020
4. SNAS – accreditation Reg. no. 049/L-025

Description:

- 1.Product in tablet form.
- 2.Product weight (1 pc / 0.5 g)
- 3.Product ingredients: FERROCENE, lubricating components, emulsifier.
4. Main component: FERROCENE -dicyklopentadienyliron . Formula Fe (C₅H₅)₂
5. Participation ratio : 60-80%
according to identification/classification CAS : 102-54-5 , EINECS : 203-039-3
- 6.Unit pack (sachet) contains 10 pieces of product.

Instructions for use/application:

Add 1 piece of product to the tank before refuelling (for 40 litres).

If necessary, use the outlet of the refuelling gun to place the product in the fuel tank.

Next refuel.
